Present for the appeal was Patrick Zydel.

Mr. Martin, Jr. asked Mr. Zydel that on the application he indicated safety concerns. Mr. Zydel stated that he wants to be able to park his car in a garage because he has fallen a few times during the winter. Mr. Martin, Jr. read four letters marked as “Exhibit A, B, C and D” against the variance concerning the side yard setback of 3.4 feet and the ability for the adjoining to build in the area. Mr. Martin, Jr. asked if the neighbor wanted to build a garage 5 feet off the property line would he be able to. Mr. Maglich stated no not without a variance because there would not be a 10 foot separation between the addition and any future building on the neighbor’s lot. Applicant is requesting to increase the size of an accessory structure from 900 square feet to 1,200 square feet, in violation of the Town of Evans Zoning Law Section 200-17 A (4) and side and rear lot line setback from 5’ to 1’ in violation of Town of Evans Zoning Law section 200-12 C (2) (a) [2] and 200-12 C (2) (a) [3] along with the separation from any other structure in violation of Town of Evans Zoning Code Section 200-12 C (2) (a) [1].

Mr. Martin, Jr. stated there is a concern with garage and the close proximity to the house. Mr. Trusiak stated that the garage will be a metal structure. RE: 8160 Hillside Street

Dear Board,

We have comments on both listed violations. Currently the south side yard is 6.18'. We estimate that the house width is 32' leaving a current side yard on the north of 26.82.

Section 200-10 C (1) c [2]:

If a total of 20' were enforced that would allow only 11' for an addition on the north side. I believe this would be a hardship for building the proposed addition. Therefore we agree a variance for this be granted.

Section 200-10 C (1) c [3]:

If the house is 32' wide on a 65' wide lot with a south yard of 6.18' this leaves a north side yard of 26.82'. The 8' required side yard would still allow an 18.82' wide addition. We believe this would be reasonable width for a family room. The proposed 3.4' side yard is too small for this situation. It would cause undue hardship on the next door neighbor if he were to build a garage in the future. That would cause the neighbor to have a side yard width of 6.6' to meet the required spacing of 10' between structures, versus the required width of only 5'. If the neighbor on the north agrees to Mr. Zydel having a 5' side yard setback, versus the required 8', we would not oppose it. We do oppose the proposed 3.4 side yard width.

Thank you for the opportunity to comment on this matter.

RE: 8160 Hillside Street

Dear Board,

I have comments on both listed violations. Currently the south side yard is 6.18’. I estimate that the house width is 34’ leaving a current side yard on the north of 24.82.

Section 200-10 C (1) c [2]:

If a total of 20’ were enforced that would allow only 11’ for an addition on that side. The house has a south ard of 6.18 because the Department of Environment Conservation required that the current house be built on the same footprint of the previous house that was demolished. I believe this would be a hardship for building the proposed addition. Therefore agree a variance for this be granted.

Section 200-10 C (1) c [3]:

If the house is 34’ wide on a 65’ wide lot with a south yard of 6.18’ this equals a north yard of 24.82’. The 8’ required side yard would still allow a 16.82’ wide addition. I believe reasonable for a family room width. The proposed 3.4’ side yard is too small for this situation. It would cause undue hardship on the next door neighbor if he were to build a garage in the future. That would cause the neighbor to have a side yard width of 6.6’, to meet the required spacing of 10’ between structures, versus the required width of only 5’. If the neighbor on the north agrees to Mr. Zydal having a 5’ yard, versus the required 8’, I would not oppose it.

Thank you for the opportunity to comment on this matter.

To the zoning Board of appeals:

We are the property owners that Rick Zydels 8160 Hillside St. variance will directly affect.

The variance will directly affect and restrict the use of our property. Because we lose the Ability to fully use our lot, we must decline the variance request.

This would not even be an issue but somehow he was able to sub divide 15 feet of property, from my elderly father. If I am correct is contrary to town policy of sub-dividing lots. Based on that knowledge, also think the town should give me back my 15 feet that rick should not have been entitled to.

Thank you for your consideration;
